

Bio of BRAD POLLMAN
for Executive Committee Director Position

BCH Background

I have been a member of the Bitter Root chapter of BCH Montana for 20 years. Our chapter is 48 years old with about 130 members.

I've been privileged to serve BCH in many positions, highlighting here many of the leadership roles:

- **Chapter Level:** Board of Director, Vice President, President, multiple committees. Currently serving as Chapter Director and State Director.
- **State Level (Montana):** State Director, Vice Chair, Chair, multiple committees. Currently serving as National Director.
- **National Level:** Executive Committee, Public Lands, Contract/Employee Review Committee. Currently serving as Chair of BCHA Public Lands Committee.

I can clean water bars and clear trails with the best of them, also empty manure bins and sit on panels at Leadership Conferences for Forest Supervisors and District Rangers.

It is important to represent each state in public lands business to the Executive Committee (EC) as well as giving input on all EC business with respect to public lands. There would not be a BCH without public lands and there would not be as much access to public lands without BCH.

Personal Background

My wife and I own and operate a construction company that designs and builds both residential homes and residential/commercial radiant heat systems. As a Trustee on our Rural Volunteer Fire District Board, our District has built three new fire halls with capital improvements in excess of \$1.5 million without raising taxes to our district taxpayers. These experiences allow me to share ideas to help BCHA maintain its success and strive to be in a financially secure position.

With your support/vote I would be honored to serve you on the Executive Committee.
Thank you for your support.

Respectfully submitted,
Brad Pollman
Bitter Root BCH, State of Montana
